This document contains telecom industry retention strategies derived from customer behavior analysis.

1. Contract Type

Customers with Month-to-Month contracts have the highest churn risk due to lack of long-term commitment.

Retention Strategies:
- Offer discounts on yearly or 2-year contracts
- Provide incentives for contract upgrades
- Highlight savings of long-term plans

2. Tenure

Customers with low tenure (less than 6 months) are more likely to churn due to low engagement.

Retention Strategies:
- Provide onboarding assistance
- Offer welcome discounts
- Increase engagement through communication

3. Monthly Charges

Customers with high monthly charges are price-sensitive and more likely to churn.

Retention Strategies:
- Offer discounts or cashback
- Recommend lower-cost plans
- Bundle services for better value

4. Internet Service

Fiber optic customers expect high performance and may churn if service quality is poor.

Retention Strategies:
- Provide premium support
- Ensure service reliability
- Offer add-on services

5. Tech Support & Security

Customers without tech support or online security are more likely to feel unsupported.

Retention Strategies:
- Offer free or discounted tech support
- Provide security add-ons
- Educate users about available services

6. Payment Method

Customers using electronic checks have shown higher churn rates.

Retention Strategies:
- Encourage auto-pay methods
- Provide small discounts for secure payments

7. Customer Profile (Family / Senior)

Senior citizens and customers without dependents may churn due to lack of engagement.

Retention Strategies:
- Provide personalized support
- Offer easy-to-use plans
- Increase customer engagement

8. General Retention Policy

General best practices:

- Personalized offers improve retention
- Proactive communication reduces churn
- Loyalty programs increase long-term engagement
